Response To Amendment

The preliminary amendment filed March 01, 2002 is acknowledged; claims 1-28 are presently pending.

35 USC 112 Rejection

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 14 and 15 the applicants have not defined how the molecular weight was measured; the recitation of bare numbers is insufficient.

Regarding claims 1-28, the phrase "for example" renders the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to

whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim s 3, 7-8, 11, 12 and 13 are recites the broad recitation

1) R, R² and R³ are selected from the group consisting of hydrogen, methyl, ethyl or propyl,

2) amide polymers

3) polymers selected from the group consisting of derivatised polyethylene glycol and copolymers of hydroxyalkyl(meth)acrylamide,

4) an integer of 1 to 10,

5) at least one of R¹⁴ to R²⁴ incorporates a cleavable bond,

6) a bioactive agent and the claim also recites

1) preferably hydrogen,

2) including polypeptide,

3) most preferably amine derivatized polyethylene glycol or hydroxypropyl-methacrylamide-methacrylic acid copolymers or amide ester derivatives thereof,

4) preferably,

5) preferably a group (I) or one or more peptide bonds,

6) preferably an anticancer agent, most preferably doxorubicin, daunomycin or taxol, which is the narrower statement of the range/limitation.

Claim 28 provides for the use of polymer, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 28 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd. App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
